ABOUT RTP

The Research Triangle Park's creation in 1959

remains one of the most transformational public-private partnerships in the history of North Carolina – and one well before its time, due to the visionary ambitions of government, business and academic leaders to create a more competitive economic base that would carry the state into the 21st century.

Today, RTP is recognized around the world for its critical mass of pioneering research, university-industry partnerships, multinational businesses and a globally competitive talent pool. It is among the largest research parks in the U.S., currently home to more than 220 companies that have created a culture of scientific advancement and collaboration.

Key RTP Facts

Find out more at www.rtp.org
